turning mechanism, the main motor parts of the inner workings of a ceiling fan were removed as not being part of the claimed invention and therefore are not necessary to be shown in the drawings. The reference characters "10", "12", and "14" were correct in the specification to refer to the cover 10, main body 12, and base of the cover/narrow end 14.

The drawings were amended to show the elements of the present claims.
